WORK EXPERIENCE

SAMSUNG RESEARCH RUSSIA, NLP Researcher

July 2021 – currently working

Neural language processing.

- **Database** – MySQL;
- **Data preprocessing** – bash, Python3;
- **Creation of neural networks** – Tensorflow, numpy, scikit-learn, matplotlib;
- **Revision Control System** – Git;

TVEMA, Software engineer

September 2020 – May 2021

Maintaining C++ projects and creation new neural networks.

- **Implementation of algorithms and code optimization** – C++14, STL;
- **Image processing** – OpenCV;
- **Creation of neural networks** – CNTK, numpy, scikit-learn, matplotlib;
- **Revision Control System** – Mercurial (TortoiseHg).

EDUCATION

BACHELOR'S DEGREE

2017 – 2021

Moscow Aviation Institute (National Research University)

Applied Mathematics and Computer Science

DATA ANALYSIS COURSE

August 2020 – September 2020

Mail.Ru Group

Python for data analysis

PROJECTS

VIRTUAL NEURAL NETWORK SABERFIGHTING TRAINER

Diploma of Bachelor's degree

Pose estimation, user actions recognition, evaluation of these actions using video stream data.

SKILLS & INTERESTS

COMPUTER PROGRAMMING

I am a software engineer, I know C / C++, STL, data structures, classic algorithms. I also use Python3 for Deep Learning and write mini scripts on bash. I work on Windows and Linux.

LANGUAGES

Russian – Native

English – Advanced (C1)

HOBBIES

Playing guitar, learning English language, reading books and writing my own stories.

ABOUT ME

I am a responsible, purposeful, stress-resistant person. I try to carry out the tasks on time. So, I am open to new knowledge and ready to solve interesting tasks!
